

# ECHELON

## COMPACT

Engineered for carry, the new Echelon™ 4.0C retains the key features of the full-size model, with a shorter 4-inch barrel and compact frame for enhanced concealability.

The serialized Central Operating Group is housed in a compact frame, offering a 15-round capacity with the flush magazine and 18 rounds with the extended magazine.

## CENTRAL OPERATING GROUP

At the heart of the Echelon lies the all-new Central Operating Group. Employing cutting edge manufacturing techniques, the Central Operating Group is entirely self-contained and serialized allowing it to be easily moved between grip modules in seconds.

## VISIONARY OPTICS INTEGRATION

Concealed beneath the slide cover plate is the Echelon's patent pending optic mounting system. The Variable Interface System allows users to mount over 30 optics directly to the slide without the use of adapter plate.
